PAVEMENT MANAGEMENT. Chip Sealing. The Chair opened up a discussion on the recent chip sealing project in Town off of West Shore Drive. The Town Administrator reviewed the process the Town went through before approving the chip

sealing project. The Town Administrator apologized that residents felt they had no notice of this. While the Town sent out mailings and flyers, posted on the website and the local papers, he should have done more to make sure the affected neighborhoods were all properly notified. Charles Quigley, Town Engineer, spoke regarding his experience with chip seal the Town's pavement management program. Patrick Noonan appeared before the Board. He expressed his concerns with the project and the negative impact it is having on the surrounding neighborhood in regards to sound, texture, loose stones, health and safety concerns. Several residents addressed the Board reiterating these concerns as well and seeking a way to rectify the situation. The Board addressed those in attendance and apologized for the impact it has had on the residents and their desire to remediate the situation. Motion made and seconded to order the Town Administrator to develop an alternative roadway improvement strategy, specifically the use of a cape seal application, or comparable, to all streets treated with chip seal. This should be implemented as soon as possible and should be properly communicated with the neighborhood in advance of microsurfacing the roads. All in favor.

The Board took a 5 minute recess.
