Joanne gave an update on the Marblehead Mental Health Task Force. The task force is responding to the mental health concerns of families and others and is getting assistance from high school, Riverside Trauma Center, etc. A program is planned for April 6<sup>th</sup> at the high school. The discussion to take place is the grieving process and other resources in the aftermath of the recent tragic death of a high school senior. The discussion will be taped by MHTV. Live streaming and the MHTV tapes will be available - see [marbleheadcares.org](http://marbleheadcares.org). Another program is planned for May 5<sup>th</sup> with the focus on mental health needs and challenges of seniors and their adult children. Sharon Doliber will moderate and tools and resources to guide.

Danelle Joyce of 17 Haley Road came before the Board to discuss the fowl permit process. She presented the numerous beneficial reasons for having chickens i.e.: fresh eggs, self-sustaining, support pets, good for the environment. She said the chickens are only hens, and as to noise at 25 feet away chickens are no louder than a normal human conversation. She said smell and rodents are also not an issue. She wasn't happy with the process which currently requires that all abutters must agree, and without that the petitioner is not even allowed a hearing. Of all the abutters (5), only one had not agreed. She said the surrounding towns do not require a sign off by abutters and only 3 towns require notifying the abutters. She concluded

stating current process in town seems unreasonable. Yael Magen, Esq. representing the Joyce family stated there are no laws thatto require abutter's approval. The Board decided to this discussion at the next meeting.

### Transfer Station Discussion

Option B will consist of the following: new scale house, redo of the existing pit structures, new swap shop, new staff facility. This can be completed with the existing funds.
