MARBLEHEAD CASE REPORTING

Case Count

The Marblehead Health Department will make weekly updates on Friday, of confirmed cases, November 20, 2020.

Confirmed cases (recent guidance categorizes all confirmed or presumptive positive cases as positive): **359**

(November 13 count was 328)

Active cases: **36**

Confirmed deaths: **30**

4	15	7	7	14	6	4	
0-19 years	20-29 years	30-39 years	40-49 years	50-59 years	60-69 years	70-79 years	80+

Total Cases by Age Group from 11/5/2020-11/19/2020

2001 COVID Tests taken by Marblehead Residents in the last 14 days 2.55 % positive

Social gatherings are contributing to these increases. Transmission is often occurring in homes as well as in the work place. 36.77% of the 359 confirmed cases and 96.667% of the reported coronavirus-related death were either residents or staff members at one of Marblehead's long term care facility.

Marblehead Health Department (MHD) data regarding case counts come directly from Massachusetts Department of Public Health (MDPH) and their surveillance system (MAVEN). We use the language and terminology per the Centers for Disease Control and Prevention (CDC) guidance, and *recent guidance categorizes all confirmed or presumptive positive cases as positive*.

Please remember that all persons in Massachusetts over the age of 5 are required to wear a mask or face-coverings over their mouth and nose when in a public location, whether indoors and outdoors. Public locations include any place open to the public including, without limitation, grocery stores, pharmacies, and other retail stores; public transportation, taxis, livery, and other ride-sharing vehicles, public streets and ways, and any location that hosts indoor and outdoor events and performances. Masks or cloth face coverings are also required when in a carpool with non-household members'.

All travelers arriving to Massachusetts – including returning residents, who do not meet an exemption, are required to self-quarantine for 14 days or produce a negative COVID-19 test result, except travelers from Hawaii, Maine, New Hampshire, Vermont. If you had close contact with a person who has been diagnosed with COVID-19, get tested, self-quarantine (stay home) and monitor your health for symptoms of COVID-19 for 14 days after your last contact (even if you have a negative test result).
