Lars Anderson Trust: Recreation & Parks Proposal/Discussion

Compiled by Chip Osborne with edits by Linda Rice Collins & Derek Norcross.

A document was read in its entirety by Chip Osborne

Comments:

This proposal addresses both active and passive use of the property. Clearly lays out Recreation & Parks desired plan for the property. This plan has been actively worked on for the past 6 years. Experts had been hired to help to get to this outcome. This plan is for everybody, not just the hockey community. At minimum this would serve over 3500 participants of organized sports. This does not take into consideration the use of charter school, programming, community and passive use. Lights can be provided at sunset

Edits needed

Eliminate "no charge" to Marblehead youth hockey.

Right before Rink section- As part of this proposal we will put \$200-250 in escrow account to facilitate repairs as need

Motion made to formally adopt the document with edits as the Recreation & Parks Proposal of the Lars Anderson Trust.

All in favor - unanimously.
