Re: 16 Hathaway Road
Insignificant window revisions to approved ZBA drawings

Dear Mr. Moriarty,

We are providing this letter and associated drawings to document the minor changes to windows located on the first floor at the Southeast corner of building.

The changes are minor in nature to the overall project approval granted by the ZBA. The changes resulted from request by the owners related to the development of the interior Architecture. We are providing the documentation for you as a record of those changes. We have met with the Building Commissioner as part of the permitting process and he suggested that we forward this to you to administratively accept these insignificant changes. I have clouded the changes on the elevations and included both the approved drawings as well as the revised drawings for your use.

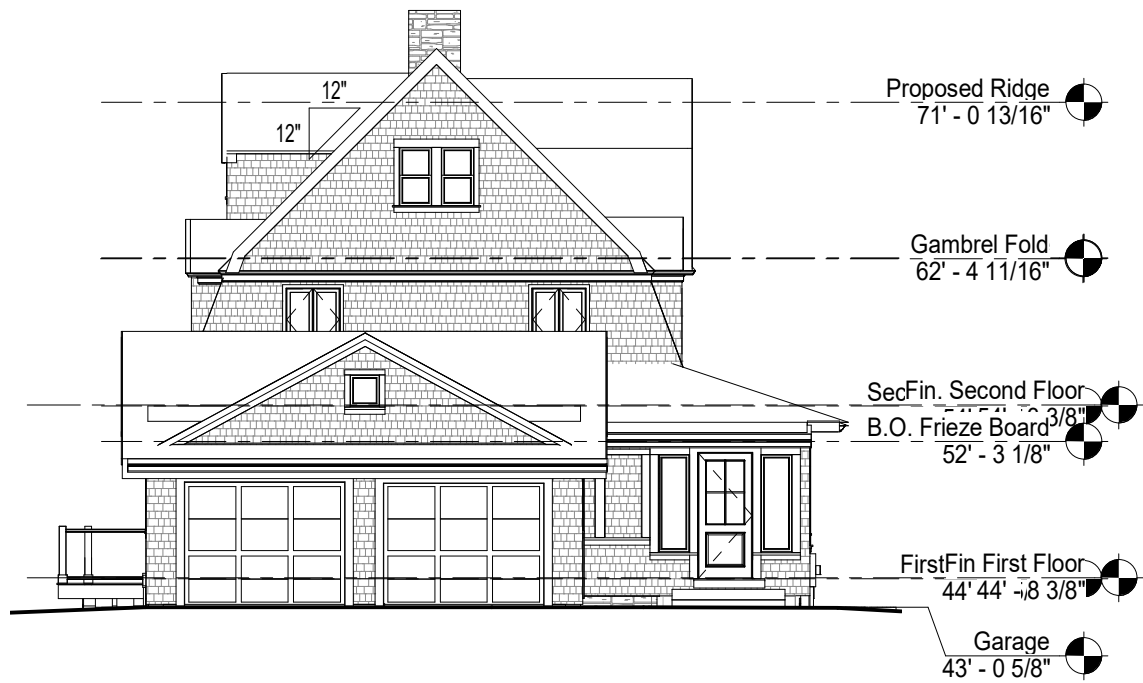

Please contact us with any questions or additional information that you might require.

Sincerely,

ROB BRAMHALL ARCHITECTS, INC.
